# The Concept

Randomly pick a cryptocurrency from the  
top 365 coins by marketcap everyday

# The Initial Code Offering

```
var coin = coins[Math.floor(Math.random()*coins.length)];
```

## The Code Reviews

### **Vitalik Buterin:**

I've never seen such advanced algorithm in my life. Now I can't sleep anymore, I must implement this in Ethereum.

### **Satoshi Nakamoto:**

I feel like revealing myself wouldn't even matter anymore, because this marvelous piece of engineering means nobody will pay attention to me anymore anyway.

### **President Trump:**

I've never. Never I say. Seen such marvelous. Yes, it's truly amazing. Well, actually if you think about how exceptionally I am, it's great, but this is more exceptional.
